## TIST Small Groups Now Receive Payments Through MPESA System.

**M**PEESA system of paying our Small Groups is working! These are good news for our thousands Small Groups in our program.

Seven clusters in seven field offices have so far received payments. They include, Kithoka cluster under Chugu field office, Male cluster in Lamulia, Kimahuri cluster in Narumoro, Mpuri cluster in Wendo. Others are Igwanjau, Kinyaritha and Kibirichia clusters in Kirimara, Kinyaritha and Ntugi respectively. We have paid a total of Ksh 575,206 so far.

Others clusters that have not received payments will be paid in our second and third phase of payments that begins in June. We urge our Small Group members to be patient as we come to serve and pay you in your clusters.

**Kithoka TIST cluster farmers in a First cluster MPESA meeting.**

In our exit surveys, majority of our members have supported this system. Ann Wambui of Murumati Miti Small Group in Lamulia had this to say, "We are very impressed by this technology. We feel secure even as we 'carry' money home. As a group, we will first meet and decide how to utilize the money we received today – since it is safely kept in our 'phone bank'. This is certainly a best practice."

Before making payments, TIST officials will attend one of your cluster meetings to train your Small Groups how the system works. At this meeting, you will be given an opportunity to ask questions and make suggestions of how to improve the system. During this meeting, TIST officials will explain to you the basic requirements that your Small Group will meet in order to receive payments. For instance, your Small Group must have its trees counted by TIST quantifiers and total number of

trees in whole group should exceed 500. Second, your Small Group must have signed the Green House Gas contract and thirdly you should at all times abide by TIST values of Honesty, Transparency, Accuracy, Accountability, and Servant-hood.

To assure transparency, your Small Group will be required to produce your green house gas contract. This will be used later by TIST officials to verify your names and signatures to ascertain that you are true members of your group. We do not want strangers to come and impose as members of your group! If the Green House Gas contract has not been returned to you, TIST officials will bring it during this meeting. Then, your Small Group will be given a week's time to go and scrutinize whether the names in your contract are your true members.

Also, during this first meeting, each group that will be eligible for payment will be given an MPESA agreement form that you will be required to study and then sign. In this agreement form, you will be required to decide who amongst your members will be a custodian of the SIM card. Each group will be given one Safaricom SIM card. To enhance more transparency and accountability in your Small Group, a second person will be chosen to keep the MPESA pin number. This means, no single individual within a Small Group can withdraw group money alone.

A second meeting will follow a week later. At the same venue. Here, at least 3 members of your group must be present. They will be your signatories. At this meeting, TIST officials will now verify your names and signatures. Then, a Safaricom SIM card will be given to your Small Group and be registered under the name of your preferred/ chosen custodian. As mentioned above, we will require a second person from your group to be the custodian of the PIN number. The two must be people that you trust and are honest. We will then make payments to your Small Group SIM card.

It is a simple process that is safe, fast, secure, transparent and cost- effective.

When Nancy Karoki, a PIN custodian of Kamiti Women TIST Small Group, went to collect her group's money with Eva- SIM custodian- they were amazed at how the system work. Nancy says, "Our group received more that Ksh 25,000.00.

Since some of our members were far away, we decided to use the same system to send their share of money. It worked so fast and very efficiently. Every member in our group was satisfied. We thank TIST for this initiative.”

TIST always welcome your ideas. Please be free to give more ideas on how best this system can be improved. See our contacts at the back page of this newsletter.

**Small Groups under Kinyaritha Field Office support M-PESA system.**

When Kinyaritha Cluster received their tree payments through MPESA system, news spread like bushfire. Other clusters such as Mikunduri, Kagaene and Miathene became excited and anxious of this new system of paying the Small Group.

We, members of Kinyaritha field offices were impressed by the effectiveness of the system. It is safe, secure, cost- effective and transparent.

Initially, a section of farmers were doubtful of this system. Those who have never used MPESA facility got skeptical. However, after paying Kinyaritha Cluster, and farmers started withdrawing their monies from MPESA agents, majority were now convinced that it is a good system.

We now urge our Small Group members to plant more trees. And importantly, plant more fruit trees and indigenous trees. It is important to plant trees in spacing of 2 meters and above. Trees that will be planted in a less than 2 meters spacing will not be counted.

Mzee Zakayo M’Murithi says “After successfully withdrawing money for my Small Group, I got an idea how effective this system works. I have now registered my personal sim card which I use to send money to my daughter who is studying in a Nairobi college. I have now been relieved the hassles of sending money through friends or traveling to Nairobi to take her money.”

Importantly, Small Group members ought to be meeting regularly. They need to share ideas together and develop best practices for their group. They should not forget ‘kujengana’ for the leader and co-leader of the day. They should keep this spirit high. Cluster meetings are also important. Small Group must make sure that they send at least two representatives – in a rotational basis- to a cluster meeting. At cluster meetings, they will get updates and new information from TIST program. They will be able to ask questions and contribute to the growth of the program. Their concerns will be addressed.

At Kinyaritha cluster, a total of 26 Small Groups received payments in less than 5 hours.

**Nyweri Cluster bringing together Small Groups in working together.**

Nyweri cluster comprises of 40 Small Groups, all within a walking distance of 1 – 4 km. We are now in newly created Central Meru district.

boosted environmental services where some stream that had begun to dry are now rejuvenated. We now experience good rainfall unlike when our area was depleted of trees.

TIST program was introduced in our area in 2005. We received it warmly and appreciated its vision for our area. Since then, the number of Small Groups has continued to grow. We have 40 Small Groups so far. And still growing.

We hold our monthly cluster meetings at Mzee Robert Muthomi homestead, a member of PAA - A best Small Group. Members of PAA - A have continued to mentor us and encouraging us to work hard so as to attain the status of a best Small Group.

**Nyweri TIST cluster farmers in their montly cluster meeting.**

Since joining the program, we have witnessed our area improving tremendously in regard to environment. The new trees planted have

Through TIST incentive programme, many framers take tree farming seriously. The amount earned helps Small Groups to establish tree nurseries. Where a Small Group has surplus seedlings, it sells in the local market thereby boosting its incoming generation efforts.

We have also been trained on conservation farming. A significant number of our members have practiced it and they testify that it boost food production by 100%. Mr. Robert Muthoni says, “Last season, I harvested 7 bags of maize from a quarter acre piece of land. When using the conventional method, I used to harvest 3 bags.”

Nyweri cluster supports MPESA system of paying Small Group. We believe in embracing new and modern initiatives. We hope that the system will serve us better.

**Members of Nyweri cluster taking porridge prepared from local roots crops such as arrowroots.**

## **TIST reaches far flung areas of Igembe District.**

**W**hen Mr. David Labuaru, an adult education tutor in Laare, heard that TIST program had reached his home area, he could not hide his joy. For a long time, he has been making request to TIST program officials to expand the program to Igembe.

Mr. Labuaru is hopeful that residents from their area are going to benefit a lot and importantly desist from straining the nearby Nyambene forest where majority fetch wood fuel.

He avers, “TIST program has come to rescue our forest – our ‘tank’ that provides us with water through streams springing from the hills.”

When Mary Wanyoike, a TSE leader assigned to expand the program in this area, held the first meeting here, she was overwhelmed by large number of farmers who were interested to join the program. So far, more that 120 Small Groups have been registered.

Areas that have so far been covered include; Laare, Igembe East, Igembe North, Mutuati, Igembe South, Igembe South- East, Igembe South- West, Ndoleli and Igembe Central. We are still on the move. To serve other areas as well.

**Mary , IgembeTSE leader signing the TSE contract.**

Mary’s Team that includes two other partners – Joseph Gituma and Jotham mwitiri – has embarked on intensive trainings in areas so far captured. Such trainings have focused mainly on Small Group formation, eligibility requirements for registration, nursery establishment and management, tree planting best practices- spacing etc, conservation farming, construction of energy efficient stoves among others.

Mary attributes the success she and her team has achieved to cooperation of the residents and interest they have for the program. “We cannot forget to enlist immense support we have received from Government Departments such as Agriculture, Forest, Adult Education, and Provincial Administration. Religious institutions have also played an important role in assuring us a success.” She adds. The team further gives special gratitude to Rev. Anampiu of Thitha Methodist Circuit for his superb support.

## **Kabari Widows TIST Small Group looks into future with confidence.**

**W**e are a TSE Small Group. We are in Ngariama location of Kirinyaga district.

Our Small Group is mainly composed of widowed mothers. We have a vision to focus on a positive future whereby we want to secure better future for our children and ourselves.

We have 12 members. All widowed ladies who have a strong will and strength to better our environment.

When we heard of TIST program at first time, we knew that it was an opportunity for us to realize our goals. But then we had little information about TIST.

When Bernard Githui, a TSE leader in entire Kirinyaga district, introduced the program to us, we quickly embraced it and committed ourselves to work hard. He, together with his two other partners, Ms. Ann Wangui and Mr. Naftaly Muchiri, have been training us in a number of helpful topics. We have been taught about nursery preparation, conservation farming and a new leadership style in TIST Small Groups.

So far, we have established two trees nurseries with a total of 2,000 seedlings. Beginning next month, we plan to start transplanting them in our fields. The local chief has been of great support to us. We have been provided with fencing materials to fence around our tree nurseries. A major species we have put in our nurseries is an indigenous *Prunus africanas*, locally known as Muiria. It is a good tree for medicinal purposes as well as protecting the soil among other benefits.

We have started with two demonstration plots for conservation farming. They are our pilot project. We intend to replicate the experience to our own individual farms.

We are now encouraging our neighbours and fellow church members to join TIST program. A new Small Group, Ten Fingers, has now joined TIST. We want to recruit more.

## **TIST participates at NEMA Fair.**

**O**n 22<sup>nd</sup> - 24<sup>th</sup> May 2008, TIST Program was among other Non- Governmental Organizations and Government institutions that took part in an exhibition organized, courtesy of National Environmental Management Authority (NEMA) held in KICC Nairobi.

The theme of this fair was, 'Kick Carbon out of Kenya.'

TIST program, a leading global afforestation and re-forestation program aimed at sequestration of carbon through tree planting, actively exhibited its technology in serving the small-scale farmers who have now benefited from the world carbon market.

The TIST stand was a bee hive of activity as guests, including Assistant Minister for Environment, Hon. Abraham Kiptanui and NEMA director, Mr. Mwinzi took interest to see how TIST technology works. Use of Palm held computer and GPS equipments fascinated many. Each day, TIST stand received over 1,000 guests.

TIST Quantifiers, Kimani and Duncan from Naro Moru represented TIST in this exhibition.

As many guests streamed into TIST stand, numerous requests were made to expand the program in North Rift, Lower Eastern, Western and Nyanza provinces. We are considering these requests and very soon we will have TIST program rolled out in their respective areas.

We are grateful to HELP international for their kind support and giving us a space.

## **TIST: The Best Practice in Conducting Weekly Meetings.**

**I**t is important too, for your Small Group to be having regular meetings. For instance, once a week or once after two weeks. This will give all members in your Small Group an opportunity to strengthen your group and also share and learn new ideas.

**Meeting Schedule.**

In managing our time better, a small group should have well-organized meeting schedule. This is important because it will help your small group keep focus of your agendas and other activities. Since we are farmers, time is important to us, and we need to make sure we hold efficient meetings that do not take up most of the day light hours.

During your meeting, it is necessary to focus on important issues. To be able to accomplish this, other TIST small groups have practiced the below steps when conducting their meetings;

**Kibirichia TIST cluster farmers in a First cluster M-PESA meeting.**

**Step I.**

**Greetings and introductions for any new members (5 – 15 minutes):** Make sure everyone feels welcomed. Make it brief but let each of you introduce himself or herself.

**Step II.**

**Opening prayer (2 minutes):** It is important to begin your meeting with a word of prayer. Keep it short.

**Step III.**

**Songs (5 minutes):** These could be songs written by your group, or songs that encourage people such as religious songs. A song sung by all will relax us and put us in a better mood.

**Step IV.**

**Agreement on task and time (5 minutes):**  
The leader explains what will be done in the meeting and the group members agree to do the task. The time spent should be agreed so that the co-leader can help keep the meeting on time.

**Step V.**

**Group work on tasks (1 hour):**  
Ideally the tasks should have been discussed at the end of the last meeting. Tasks might include sharing what each person has done to help TIST activities, sharing best practices, training and any other important issue that will help your small group to prosper.

**Step VI.**

**Kujengana (5 minutes):**  
Each group member makes one positive, specific statement to that week's leader about his or her observable leadership of the meeting. In addition, anyone may identify a gift seen in the leader.

**Step VII.**

**Closing prayer (2 minutes):**  
End your meeting with a word of pray.

**TIST Kenya invites Small Groups members to prepare and submit their articles for publishing in this Newsletter. Such articles should feature activities carried out by your Small Group, Achievements, Success, Challenges and opportunities.**

**We would like to hear from you the benefits you have achieved since joining TIST and areas that you would like us improve.**

**To reach us, you can contact Joshua - 0724 - 255369, Martin -0722-846501. Email address [joshuahirungu@tist.org](mailto:joshuahirungu@tist.org), [martinweru@tist.org](mailto:martinweru@tist.org).**

**You may also contact our Field Offices Staffs in Narumoro, Lamulia, Ntugi, Kinyaritha, Chugu, Wendo and Kirimara. We will be at your service.**

**Thank you.**  
*Among the things you can give and still keep are your word, a smile, and a grateful heart.*

## **Ikundi nini cia TIST riu ciramukira mbecha kuhitukira M-Pesa.**

Mubango wa MPESA wa kuriha ikundi nini niururuta wira wega. Uu ni uhoro mwega muno kuri amemba makiria ma ngiri igiri a ikundi nini.

Ikundi mugwanja niamukirite marihi mao, ikundi ici nicio, Kithoka kuma wabichi ya chugu, Male kuma wabichi ya Lamulia, Kimahuri kuma wabichi ya Narumoro, Mpuri kuma wabichi ya Wendo. Ikundi ingi nita Igwanjau, Kinyaritha na Kibirichia kuma wabichi ya Kirimara, Kinyaritha na Ntugi.

Ikundi iria itamukirite marihi ni cikarihwo gitiribu gitu gia keru kiria gigakorwo mweri wa June. Turoria ikundi ici cieterere tondu nituguka kumuriha icigoini cianyu.

**Amemba a cluster ya Kithoka magithomithio njira ya kuriha ikundi kuhitukira M-PESA.**

Kuringana na utwiria witu, andu aingi nimanyitite mbaru mutaratara uyu wa marihi. Ann Wambui kuma Marumati wabichi ya Lamulia ari na uu wakuga “Nitukenete na tukagega ni utaaramu uyu. Tuiguaga turi na ugitiri munene muno tugikua mbecha tugathii nachio muchii.. Twitagikundi, tukwamba kubanga uria tukuhuthira mbecha ici twamukira umuthi- tondu ningitire wega thimuini citu. Kwaria ma uyu ni mutaratara mwega”

Mbere ya kwanjia kurihwo, atongoria a TIST makamba kumucherera mamuthomithie uria utaaramu uyu wa M-Pesa uraruta wira. Michemanioini ino nimukaheo kanya ga kuria ciuria na orohamwe na kuruta mawoni mangiteithiria kwagirithia mutaratara uyu wa marihi. Nimukamenyithio mabataro maria no nginya muhingie nigetha muhote kwamukira marihi. Ta ngerekano, miti yotho no nginya itarwo ni Atari a miti a TIST na ikorwo iri makiria ma 500 orogikundi. Wakeri, no nginya gikundi gikorwo ki-iguithaniirie na gigekira kiore GHG na wagatatu no nginya witikanirie na mawatho ma TIST nimo, Wihokeku,

utheri, waragania na utungata.

Nigetha guthingata waragania, ikundi nini no nginya cionanie uiguithaniria wa GHG. Thutha wabichi ya TIST niikahuthira uu nigetha kumenya kana aya nio amemba a gikundi giki. Totikwenda andu mateandikithitie moke matwe ati nia gikundi kianyu. Angikorwo uiguithaniria uyu nduchokeirio, nimukarehero ni arugamiriri a TIST muthenay ucio wa muchemani. Thutha ucio nimukaheo kiumia kimwe nigetha muthii murore kana acio nio amemba a gikundi kianyu.

Uromuchemanio-ini uyu, ikundi, iria cigakorwo ihingitie mawatho ni cikaheo fomu ya M-pesa iria mugathoma na muikire kiore. Hari fomu ino, ni mukandika uria urikoragwo arugamirire kandi ya thimu. Gikundi kirikoragro na kandi imwe ya thimu. Niundu wa waragania na utheri gikundini kianyu, mundu ungi niarithuragwo aigage namba ya thiri ya M-Pesa. Uu nitakuga ati gutiri mundu wa gikundi kianyu angiruta mbecha ariwiki.

Muchemanio wa keru ugakorwo thutha wa kiumia kimwe na nonginya amemba makiria ma atatu a gikundi kianyu makorwo kwo. Noi marikiraga irore. Muchemanioini uyu noguo anene a TIST magekira na kinyimaritwa manyu na irore. Nimukaheo kandi ya thimu ya safaricom na inengerwo mundu umwe uria mugachagura. Ta uria tukugite hau mbere, nikuribatarikanaga mundu ungi wa keru wa kuigaga namba ya thiri. Andu acio eri nonginya makorwo mari andu mwihokete na mari na waragania. Thutha ucio ni tukariha gikundi kianyu kuhitukira thimu.

Ni mubango muhuthu, wanaihenya, wina ugitiri, waragania na mahuthiro manini.

Nancy Karoki, uria uigaga namba ya thiri ya gikundi kia Kamiti Women, riria mathire kuoya ambecha mari na Eva- uria uigaga kandi ya thimu ya gikundi ni mamakire muno kuona uria utaramu ucio uraruta wira. “Gikundi gitu kiamukirire makiria ma 25,000.00, na tondu amemba angi aitu makoragwo mari kuraya na kogwo twatumirire mutaratara uyu kumatumira mbecha ciao.” Ni njira yarutire wira wega muno. Mundo wotho wa gikundi gitu ni akenire ni mubango uyu. Turachokia ngatho niundu wa TIST.

Mundu orowotho ungikorwo na maoni mangiteithiria kwagirithia mutaratara uyu. Thutha wa ngatheti ino hari na namba iria ungitukinyiria.

## **Gikundi kinini gia kinyaritha Kunyita mbaru mutaratara wa marihi wa M-Pesa.**

Riria amemba kuma wabichi ya Kinyaritha mamukirire marihi mao kuhitukira M-Pesa. Ndeto icio ciatambire na ihenya muno na ikundi nini cia Mikinduri, Kagaene na Miathene ni ciakenirio muno ni njira ino njeru.

Mbere kabitha arimi anini mari na nganja iguru ria mubango uyu. Aria matari mahuthira utaramu uyu wa Mpesa ni magiire na nganja. No thutha wa kuriha wabichi ya kinyaritha na makianjia kuruta mbecha kuma Mpesa, aingi a arimi aya nimetikirie utaaramu uyu.

Mzee Zakayo M'Murithi ouigire "Thutha wa kuruta mbecha cia gikundi giakwa kinini, ni ndagiire na umenyo uria utaaramu uyu uratuta wira. Riu ni nyandikithitie kandi yakwa ya thimu iria huthagira gutumira mwari wakwa uria urithukuru Nairobi. Riu ni njeguti-irio murigo wa gutuma mbecha kuhitukira arata kana ngetwara Nairobi."

Gikundini gia Kinyaritha makiria ma ikundi 26 niamukirire marihi machio hari kahinda ka mathaa Matano,. Ithui ta amemba a Wabichi ya Kinyaritha nitukenete muno ni utaaramu uyu niundu wina ugitiri, ni waraithi na wina utheri na waraganja.

Nituroria amemba a gikundi gitu mahande mitimakiria na makiria miti ya matunda na ya kinuire. Niwega kuhanda miti na utigana wa mita 2 kana makiria tondu miti iria irina utiganu wathiya mita 2 ndiritaragwo.

Niwega amemba machemanagie kaingi, nigetha makagayana maugi mithemba na mithemba.. na matikariganirwo ni 'kujengana' niundu wa mutongoria na munini wake. Michemani ya ikundi oronayo ni njega. Ikundi nini cionage ati niciatuma andu eri kana makiria michemanioini iyo. Nichemanioini ino nimarigiaga na makamenya maundu meru ma TIST. Nimarihotaga kwaririria maundu ma guteithiriria kwagiria TIST orona kana kuria ciuria. Maundu maya animariaririuo.

## **Cluster ya Nyweri kunyitithania tukundi tunini turute wira hamwe.**

Cluster ya Nyweri gikoragwo kiri na ikundi nini 40 iria iri handu mundu angithii na maguru ha 1 – 4

km. riu turi gichigoini kieru kia Meru ya gatagati.

TIST yambiri-irie gicigoini gitu mwaka wa 2005. Twamiamukirire na ukunguiri munene na tugikena niundu wayo guka gicigoini gitu. Kumia hindi iyo nitukurite na riu turi na ikundi makiria ma 40.

### **Amemba a cluster ya Nyweri mari mucemano wao wa o mweri.**

Tuthiaga michemano oromweri muchii kwa muthuri ti Robert Muthomi uria ukoragwo ari wa gikundi kinini gia PAA – A.. Amemba a PAA - A nimakoretwo magitumiriria nigetha tutwike gikundi kinini kiega.

Kumia twanjie mutaratara uyu nitwonete gicigo gitu gigikura makiria mwena wa maria matuthiururuki-irie. Njui nyingi iria cianjitie kuniara riu cirri na mai maingi niundu wa kuhanda miti. Riu nitwamukagira mbura nyingi gukira riria gutari miti.

Arimi aingi riu mahandaga miti mari na wirutiri munene kuhitukira TIST. Mbecha iria magiaga cihotithagia ikundi nini kuhanda tumimera tuingi. Riria gikundi kiagia na tumimera tuingi ni kiendagia na kogwo gikagia na mbecha makiria.

Nituthomithitio iguru ria urimi mwega. Arimi aingi aria mahuthirite urimi uyu mari na uira ati niwongagiriria irio na 100%. Ta uria muthuri Robert Muthoni aroiga, "Kimera githiru nindagethire ngonja mugwanja kumana na urimi uyu na mbere iyo ndagethaga ngonja ithatu."

Ithui ta gikundi kia Nyweri nituranyita mbaru utaaramu wa M-pesa na turehoka niugutwika wa guturehera maungu maingi meru na turehoka niugututungata wega.
